MEMORANDUM FOR THE RECORD

SUBJECT: Conversation with David Aaron,
16 July 1980 (U)

1. I asked David what the status was of S. 2284. He is meeting with Miller to pin down the preciseness with which Huddleston will rectify the record on S. 2284's language and the means by which he will do this. This meeting will be on Friday. I asked him if [redacted] could sit in on it; he indicated probably, but that he would let us know. (C)

2. It is his intention, then, to continue to support Zablocki and to support S. 2284. He hopes that the Senate Foreign Relations Committee will take S. 2284 as the basis for a conference compromise with the Zablocki amendment. It would appear that that might be all right since anything between those two would probably be acceptable to us, whereas any backsliding on the Zablocki amendment would not be. (C)
